

October Fall/Autumn

Morning Work

Preschool

Preschool October Morning Work

Description:

Start the morning off right with a daily routine that gets kids quietly working on important preschool skills! The pages are all similar, so children can learn the routine and begin to work independently. This gives *you* time to prepare for the day!

These pages are perfect for morning work, but could also be used for homework, centers, homeschool, tutoring, or fast finishers.

To use:

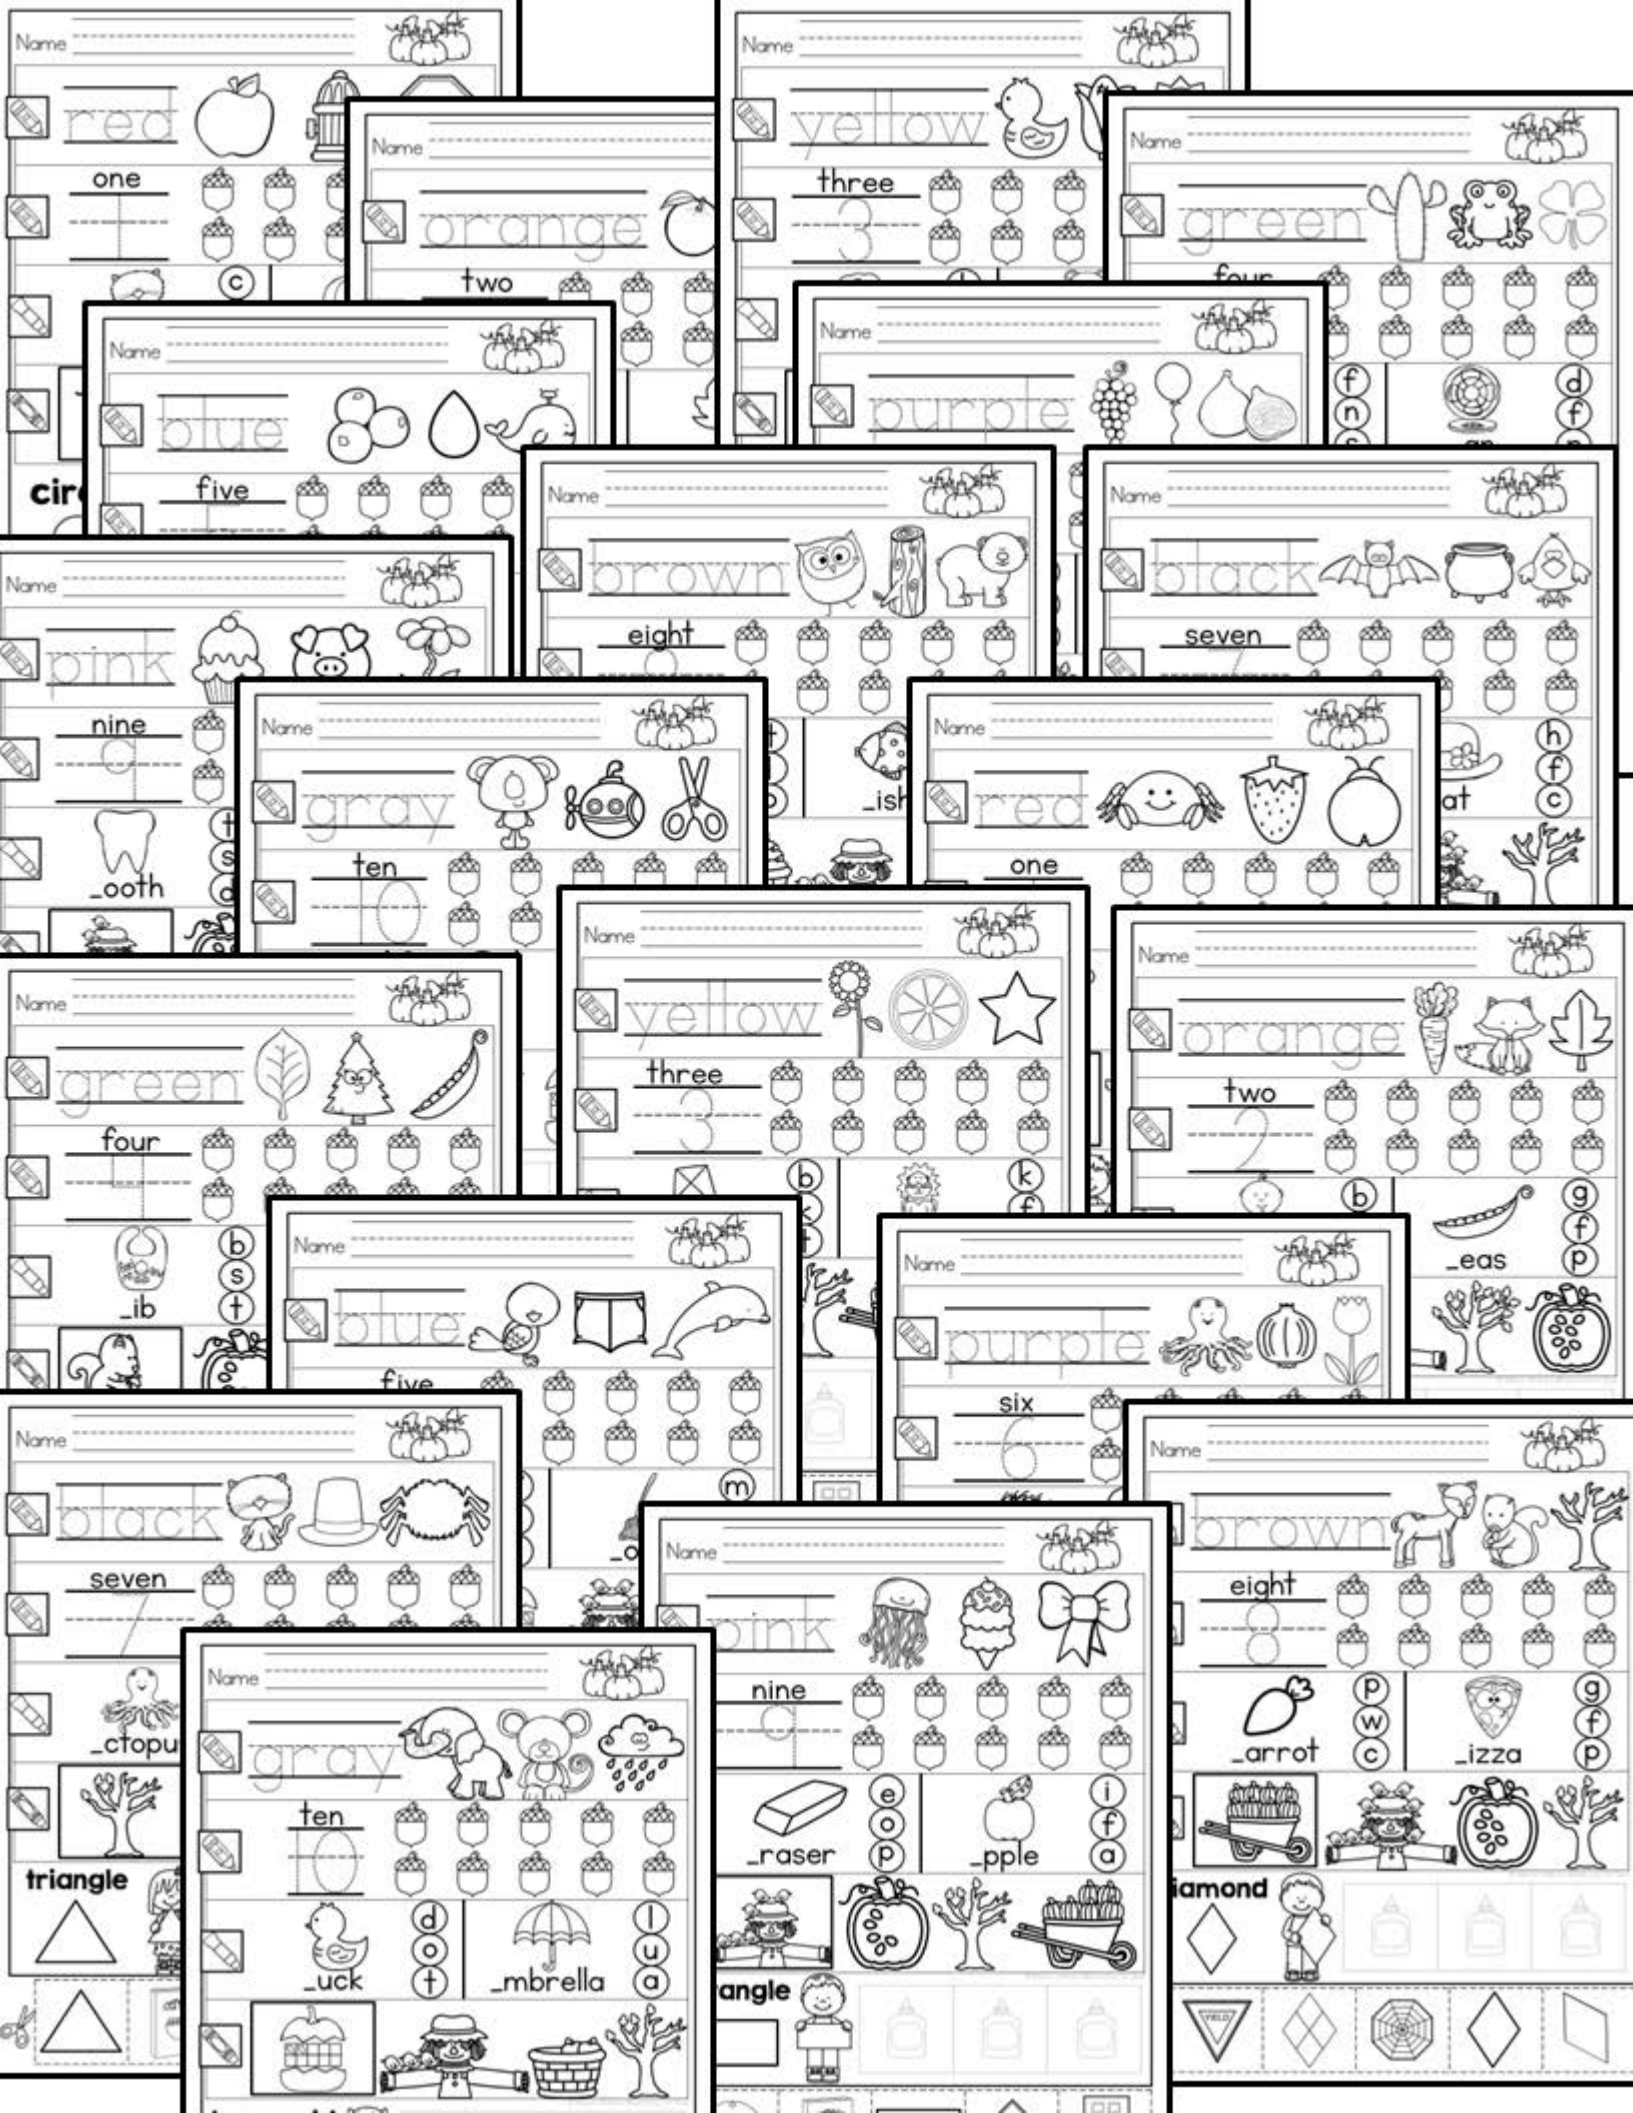

Just print! Provide a pencil, crayons, dabbers, scissors, glue and any other mediums children can use to trace, color, and draw.

Skills practiced each day:

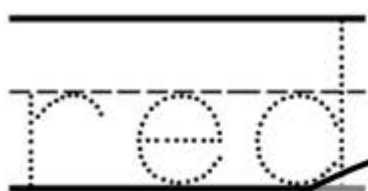

(Each page contains the following sections)

1. Color Sight Words: Trace and read the color word and color the three pictures the correct color.
2. Counting & Cardinality, Writing Numbers: Trace the number and color the correct number of acorns.
3. Beginning Sounds: Look at the picture and dab the correct beginning sound.
4. 1 to 1 Correspondence: Count the items in the box and color the fall set with the matching amount of items.
5. 2D and 3D Shapes: Look at the shape at the top. Cut and glue the three matching 2D and 3D shapes.
